

Memories

for an unstable future

Sandrine Deumier 2023

Digital animation

Synopsis : *Memories for an unstable future* is a journey through landscapes, neither natural nor artificial in which the material of the landscape is the constitutive element of a new human existence. The video evokes the possibility of imagining non-invasive ways of living that could steer the present towards viable near-futures, where living would mean sharing the world-with.

Duration : 4min 40s

Video format : .mov, H.264 Codec
