(Trondheim, Norway) 2020

Multimedia Installation

(virtual reality + video projection)

This installation consists in two parallel scenes presented in two distinct formats :
Realness - Cloud and Dust (a spherical video projection) and
Realness - Intimate Garden (a 360° animation, available with a VR headset for an immersive, individual and intimate experience)

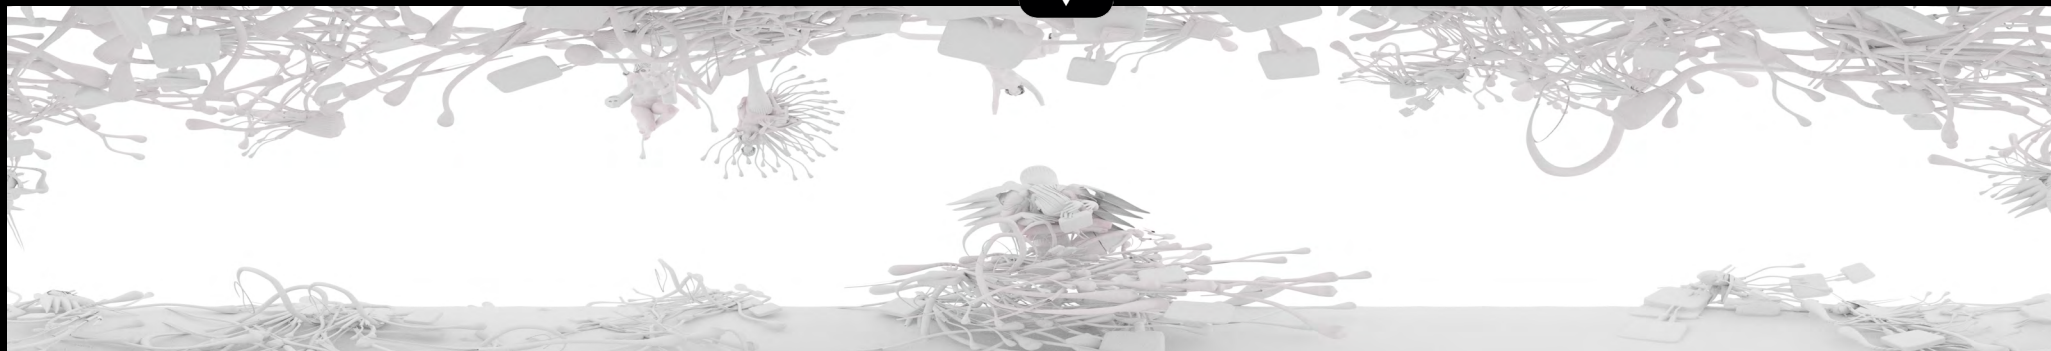

MATERIAL REQUIRED

1 HTC Vive + 1 computer
1 video projector + 1 computer + 1 screen

Realness - Cloud and Dust
Video projection | Duration : 19:00

Realness - Intimate Garden
360° video | Duration : 09:00

Realness

Cloud and Dust

Designed in multiple scenes, *Realness - Cloud and Dust* is an artificial space of vegetal luxuriance with semi-humanoid growths. A virtual fantasy of a symbiosis between the human being and his natural environment.

Animation | 2018 | 2048 X 2048 | Silent | Duration : 19:00

Realness *Intimate Garden*

Sensory immersion in a cybernetic garden, *Realness - Intimate Garden* is the exploration of a possible identification to a mutant nature. At the interstices of an artificial nature and a renatured humanity (artificially reconnected to a prefabricated natural world), these landscapes neither human nor non-human are a dive into an artefact of nature.
